Maintenance + Care Report

We're taking care of it.

Hello Dani,

Your website is in good hands! This report gives you a detailed breakdown of the maintenance performed on <https://kaleidaweb.dev/> recently to keep your site secure, fast, and running smoothly.

What this means for you:

- Maximum uptime – Your site was online and accessible to visitors.
- Stronger security – Updates and monitoring helped protect against threats.
- Better performance – Optimizations kept everything running smoothly.
- Reliable backups – Just in case, your data is safe and recoverable.
- Theme + plugins updated – Stay up-to-date with the latest software.

Regular maintenance prevents issues before they happen, ensuring your visitors always have a seamless experience.

Have questions or need assistance? Feel free to reach out anytime.

It's a privilege working with you keeping your website in top shape!

Best,

Dani + the kaleidaweb team

Rank Math SEO	1.0.247 > 1.0.248	July 06, 2025

Backups

The only way to protect yourself in tough situations.

A backup is your primary guarantee that your website can be fully restored after an outage. Backups are invaluable if you accidentally delete important elements, or if your website is hacked. We always keep multiple backups of your site and are ready to restore back anytime.

✓ Your website is backed up regularly and securely.

Number of backup available	31
Last backup	July 12, 2025
Backup frequency	Daily

Uptime

Uptime & Performance Data from Google PageSpeed Insights.

Uptime

Downtime happens more often than people think. That's why we constantly monitor your website to make sure that we are the first to know that your website is down, so we can fix it before your consumers even notice it!

Status	Up	Uptime rate	100.00%
--------	----	-------------	---------

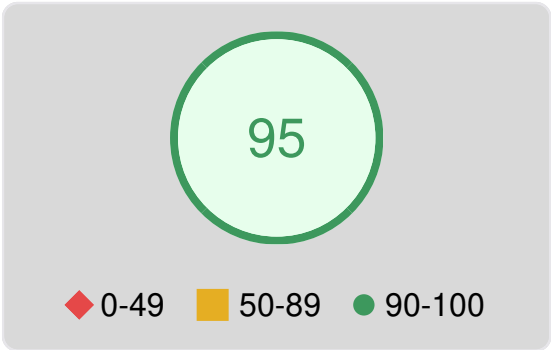

Performance

It's important to have a website that is always online and performing well.

Performance

Performance is key to having a fast and efficient website. When a visitor opens a site for the first time, they expect it to load within 3 seconds. A great first impression is crucial for online businesses, as speed plays a decisive role in shaping how a brand is perceived on the web.

<div>● First Contentful Paint (FCP)</div> <div>Time it takes for the first visible element to appear on the screen</div>	0.7 s
<div>● Time to Interactive (TTI)</div> <div>Time it takes for the page to become fully usable and responsive.</div>	0.7 s
<div>● Speed Index</div> <div>Measures how quickly the visible parts of the page are displayed during loading.</div>	2.1 s
<div>● Cumulative Layout Shift (CLS)</div> <div>Tracks unexpected layout shifts to ensure a visually stable experience.</div>	0.012
<div>● Total Blocking Time (TBT)</div> <div>The total time during loading when the page is unresponsive to user input.</div>	0 ms

Security

Our top priority is ensuring that your website remains up, secure and indexable by search engines.

Security monitoring is a crucial part of maintaining a secure website. It helps us monitor your website for any security threats and vulnerabilities.

Monitoring of vulnerabilities

Monitoring of vulnerabilities	Every 6 hours
Uptime monitoring	✓
SSL monitoring	✓
Domain monitoring	✓
PHP Issues monitoring	✓

Site Health

WordPress version	6.8.1
Website indexability	✓
PHP version	8.3.22
Safety of the PHP version	✓

Thank you!

Many thanks again for your trust in our care for your business, Dani.
