## **Maintenance + Care Report**

# Maintenance + Care Report

We're taking care of it.

---

Hello

Your website is in good hands! This report gives you a detailed breakdown of the maintenance performed on recently to keep your site secure, fast, and running smoothly.

What this means for you:

- Maximum uptime – Your site was online and accessible to visitors.
- Stronger security – Updates and monitoring helped protect against threats.
- Better performance – Optimizations kept everything running smoothly.
- Reliable backups – Just in case, your data is safe and recoverable.
- Theme + plugins updated – Stay up-to-date with the latest software.

Regular maintenance prevents issues before they happen, ensuring your visitors always have a seamless experience.

Have questions or need assistance? Feel free to reach out anytime.

It's a privilege working with you keeping your website in top shape!

Best,

Dani + the kaleidaweb team

# Overview

Everything you need to know about your site.

## Updates

Number of plugins updated	1	Number of themes updated	0
---------------------------	---	--------------------------	---

## Backups

Number of backups	7	Backup Frequency	Daily
-------------------	---	------------------	-------

## Uptime

Status	Up	Uptime rate	100.00%
--------	----	-------------	---------

## Performance

Google PageSpeed	97 / 100		
------------------	----------	--	--

# Updates

We continuously keep your site up to date.

In the WordPress technology ecosystem, updates are crucial to maintaining optimal performance and strong security.

## WordPress

✓ Your WordPress is up to date

### Last plugin updates

Plugin	Version	Updated On
FastPixel Website Accelerator	1.1.0 > <b>1.2.0</b>	January 23, 2026

# Backups

The only way to protect yourself in tough situations.

A backup is your primary guarantee that your website can be fully restored after an outage. Backups are invaluable if you accidentally delete important elements, or if your website is hacked. We always keep multiple backups of your site and are ready to restore back anytime.

✓ **Your website is backed up regularly and securely.**

# Performance

It's important to have a website that is always online and performing well.

## Performance

Performance is key to having a fast and efficient website. When a visitor opens a site for the first time, they expect it to load within 3 seconds. A great first impression is crucial for online businesses, as speed plays a decisive role in shaping how a brand is perceived on the web.

● <b>First Contentful Paint (FCP)</b> Time it takes for the first visible element to appear on the screen	0.9 s
● <b>Time to Interactive (TTI)</b> Time it takes for the page to become fully usable and responsive.	0.9 s
● <b>Speed Index</b> Measures how quickly the visible parts of the page are displayed during loading.	0.9 s
● <b>Cumulative Layout Shift (CLS)</b> Tracks unexpected layout shifts to ensure a visually stable experience.	0.003
● <b>Largest Contentful Paint (LCP)</b> The time it takes for the largest contentful paint to appear on the screen	1.2 s
● <b>Total Blocking Time (TBT)</b> The total time during loading when the page is unresponsive to user input.	0 ms

# Security

Our top priority is ensuring that your website remains up, secure and indexable by search engines.

Security monitoring is a crucial part of maintaining a secure website. It helps us monitor your website for any security threats and vulnerabilities.
